

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

Fifty-five Hampshire Registers have now been printed in this series. Two of the Registers in this volume, it will be seen, go back to the very earliest period, 1538 or 1539; while the other two date only from the latter half of the seventeenth century.

The preceding six volumes contained the Marriage Registers of fifty parishes, as well as the Burials and Baptisms at the Cathedral:—

This volume, like its predecessors, is issued without an index. The Editors hope that it will be feasible hereafter to issue a general index for the whole county, and thus avoid

that great evil—an undue multiplicity of indexes. Moreover, by postponing index-making, we expedite the printing of the Registers themselves, a matter of no small moment when we remember the serious risks of fire, theft and forgery, not to mention those of natural decay and accidental loss, to which these valuable records are continually exposed.

The following abbreviations are again made use of:—

w.=widower <i>or</i> widow.	p.=of the parish of.
s.=spinster, single woman, <i>or</i> son.	co.=in the county of.
b.=bachelor <i>or</i> single man.	dioc.=in the diocese of.
d.=daughter of.	lic=marriage licence.

Of the Registers in the present volume, the very long one of Eling was transcribed by the Rev. T. Thistle, Vicar of that parish; that of Sopley by Mr. A. V. Woodman; and Westmeon by Canon Benham. Thanks for permission to print the Registers are due to the Clergy, whose names are mentioned under the respective parishes.

It may be well to remind the reader that these printed abstracts of the Registers are not legal "evidence." For certificates application must be made to the local clergy.

Volume VIII. is in the printer's hand, and will be issued at an early date. It only remains to add that the Editors will gladly welcome further help in the way of transcribing the marriage entries. Such voluntary help alone renders it possible to issue this series of the Parish Registers of Hampshire.

Hampshire Parish Registers.

Marriages at Eling,

1539 to 1812.

C
NOTE.—The Registers of Eling fill many volumes, of which the first two are naturally the most interesting. These are of parchment, and from 1539, when the first volume begins, to 1597 and a little later, are all in the same handwriting. It is probable, therefore, that they were originally written on paper and in 1597, in accordance with the orders then issued, copied by the clerk at that time on to parchment. This will account for the fact that there are some entries missing in the years 1550-1560, with a note by the clerk calling attention to the fact, and some entries imperfectly made, either the day and month or some name being omitted. Probably, the clerk copying the old registers found some of the pages mutilated or illegible, or lost.

The first Register is a square book of parchment, measuring $12\frac{1}{2}$ x 10 inches, of 300 pages, and with the exception of the last two pages which are torn, is not damaged in any way. It contains the entries of Baptisms, Marriages and Burials for about 140 years, with thirty-five to forty entries on a page, making about 10,000 entries in all. For the first hundred years it is very carefully and beautifully written, in old English characters, and is a model of what such a book should be. In 1638, however, on the death of William Wallon, the "Clarke of ye p'ish," the writing changes from the official to the common hand, and Samuel Crayker, the succeeding clerk, for the first time practices writing, not as an art, but as a convenience. From this time onwards the writing is sometimes better, sometimes worse, and occasionally so bad as to be almost illegible.

The second volume is of similar size, $12\frac{1}{2}$ x $8\frac{1}{2}$, and material to the first, but it covers only about eighty years (1673-1750), showing how largely the population of the parish had by this time increased. The noticeable thing about these books, as compared with those of many other churches, is their size and quality and the very unusual care that must have been taken of them. A book that was used constantly and by many different hands for 140 or even 80 years, and is yet in almost perfect preservation, must have been very carefully dealt with all the time.

The subsequent volumes are of the ordinary type.

These Marriages have been extracted by the Rev. T. Thistle, Vicar of Eling, and are now printed by his permission and under his supervision.

Marriages at Sopley,

1682 to 1812.

NOTE.—Vol. I., 1661-1732, is a long narrow volume containing 125 paper pages. The first page informs us that it was bought for the parish of Sopley in the year 1690, Phillip Smith and Richard Elliott being churchwardens. Some part of an earlier Register has been entered into it. The Baptisms of the Roffe family commence 1661, the Marriages in 1682, and the Burials and other Baptisms in 1678. The years 1690, 1691, 1707, 1708, 1709, 1717, 1727, seem to be missing.

Vol. II. contains 112 parchment leaves. The Baptisms and Burials are from 1732 to 1786, the Marriages from 1732 to 1754.

Vol. III. The register provided under Lord Hardwicke's Act contains Marriages from 1754 to 1812, the year 1802 seems to be missing.

These extracts have been made by Mr. A. V. Woodman, of Bournemouth, and are now printed under his supervision, by permission of Rev. J. F. Vallings, Vicar of Sopley.

Marriages at Westmeon,

1538 to 1800.

NOTE.—The early Registers of Westmeon are contained in three volumes.

Vol. I. is of parchment, bound in parchment. It contains 37 leaves and measures 12 ins. x 5 ins. It includes the Baptisms from 1542 to 1640, and Burials from 1536 to 1640. The dates and entries, as will be observed, are irregular.

Vol. II. is of parchment, bound in parchment. It contains 28 leaves and measures 13 ins. x 4½ ins. It includes the Marriages, Baptisms and Burials from 1641 to 1688.

Vol. III. is of parchment, bound in parchment. It contains the Burials from 1640 to 1733. The covers of these volumes are lost.

Vol. IV. is of parchment, bound in calf, and contains 75 leaves and includes the Marriages from 1733 to 1754.

Vol. V. is the usual book of printed forms under Lord Hardwicke's Marriage Act.

These extracts were made by the Rev. Canon Benham, Rector of St. Edmund's, Lombard Street, London, and the proofs have been collated by the Rev. R. H. Fair, Rector of Westmeon, by whose permission they are now printed.

Marriages at Silchester,

1653 to 1812.

NOTE.—The Marriage Registers of this parish may be thus described :—

Vol. I., a paper book with vellum cover, leaves in about nine pads, forming pages measuring 15 x 6 inches in fair condition except for damaged corners. The reader should observe the interesting point that this Register records in the early entries, double Marriages, first before the Justice, then by the Minister.

Contents :—1653 to 1662, mixed entries at later period arranged separately thus : Baptisms, 1663 to 1702 ; 1702-1711 ; 1711-1728 ; 1729-79 ; Marriages, 1662 to 1679 ; 1682-1731 ; 1730-1754 ; Burials, 1661 to 1681 ; 1669-1675. At reverse end, some Briefs from 1661 ; Collections for release of Slaves from Turkey, etc.

Vol. III., one of the usual books of printed forms, contains the Weddings from 1754 to 1812. These Marriage entries have been extracted by Mr. S. Andrews, and are now printed by leave of the Rev. Thomas Langshaw, Rector of Silchester.
